Servus!

Dear teachers,
dear parents, dear students!

Since 1950, *young austria* has been a reliable partner for schools, clubs, companies and parents when it comes to planning and organizing unforgettable trips for children and young people. Last year, we proudly celebrated our 75th anniversary – a long tradition in which we have created countless experiences that have inspired and shaped young people.

From the very beginning, we have focused on high-quality programs that combine adventure, education and intercultural exchange. With modern accommodations tailored specifically to groups, educationally valuable activities and a dedicated team, we enable children and young people to enjoy unique experiences in a safe environment.

In addition to our school and youth group trips, we welcome more than 2,000 children from all over the world to our popular summer camps every year. This allows us to gain valuable insights into current trends, modern accommodation concepts and the organizational requirements that are essential for a successful trip.

With our new slogan "Experience more together", we underline our commitment to empowering and educating children and young people through shared experiences in nature and in a multicultural environment.

Discover the wide range of opportunities we offer in this catalogue to make your next school trip, children's or youth group trip a truly special experience. We look forward to organizing and experiencing many more adventures together with you in the future

Enjoy browsing through the catalogue and warm greetings from Salzburg, Katrin Lengauer, Christina Kaltner & the *young austria* team

Together with our continually growing team in Salzburg, our mission remains unchanged:

"We want to offer young people unforgettable experiences that have an impact far beyond the trip itself and that shape and connect future generations. In doing so, we are a reliable and trustworthy partner for teachers, accompanying staff and parents throughout the entire travel process."
